IEEE Reference Guide examples typeset with biblatex-ieee

November 9, 2026

Each example of the IEEE Reference Guide, V 3.28.2025 is shown twice: first as given in the guide ("Guide"; plain text, the guide's italics are not reproduced), then as typeset by biblatex-ieee ("biblatex-ieee") from the entry of `comparison/reference-guide-biblatex.bib` printed below it. Entry types biblatex has no IEEE driver for (legal citations, government documents) are entered as `@misc`. The complete reference list follows at the end.
